

# Memory Cradle

## Comfortable Support for Clinic or Home Use

- Comfort for face down techniques.
- Great behind your neck while reclining.
- 100% memory foam with a soft sherpa fleece cover.

### Great at Home or Office

Our Memory Cradle is ideal in a spa and massage setting, and can be used at home for extra comfort while reclining.

With its memory foam construction, the cradle provides exceptional comfort, especially during face down techniques. It comfortably conforms to your face without leaving pressure lines common with other face cradles.

This cushion also works well with face up techniques or for resting or sleeping. Simply turn the cushion around and use it behind your neck.

### High Quality Construction

We use the highest quality material in all of our products to ensure years of comfort and use. High-quality memory foam is the key to the Memory Cradle. The four-inch-high foam is precision cut for more consistent performance. The cover is made with a soft, comfortable, fleece sherpa that's easy to remove and wash.

This cushion is designed to work with most standard treatment tables. Simply remove your current face cradle and replace it with our Memory Cradle.

### Specifications

#### Dimensions

- 12.75x12x4" (32x30.5x10cm)
